Board Meeting  
July 15, 2000

**MEMBERS PRESENT:**

Alice Belmont  
Grady Bowyer  
Mark Wilcox  
W. Alva Deardorff, M.D.  
Susan Bellomy

Call to Order

Rules and Regulation Changes

Old Business from the June 26<sup>th</sup> Meeting

**MEMBERS ABSENT:**

Larry J. Heck  
Leah Jean Morris  
Judith Schreiman, M.D.  
Gary Marano, M.D.

Alice Belmont called the meeting to order at 10:05 AM. The BOE held an emergency meeting in Flatwoods, W. V.

The Board members discussed, changed, and revised the Rules and Regulations for:

- A. Series 1
- B. Series 3 & 4
- C. W.V. Code Changes

This was a lengthy process due to the fact it consisted of line by line revisions, changes and amendments. Grady volunteered to re-type the changes put the document on the web page for comments and suggestion and submits the changes for public comment.

The administrative secretary, Mary Casto, who is paid by the BOE for Radiology Technologist, should by rights have her name signed to the licensure document as Administrative Secretary instead of the BOE Secretary. This was approved unanimously.

Old Business cont'd

Dr. Deardorff attended the CLEAR conference seminar on July 8, 2000. This meeting was mandated by Chapter 30 of the W.V. code and in recent legislative session of House bill 4062 that required this training for all W.V. Boards. The length of time had run out before Dr. Deardorff could report his findings of the Clear conference during the preceding meeting of June 28, 2000. An update and summation of the conference was presented to the members at this meeting.

New Business

The Board discussed the possibilities and feasibility of hiring an Executive Director whom is not an appointed BOE Member. This position will handle all legislative lobbying, inspection, overseeing the functions of the office and other services. Apparently, there are other professional boards that have such a position. The Board will look into the feasibility, job description, and salary, to see if we can obtain this much-needed position for the future.

No further business the BOE of Radiologic Technology adjourned at 2:00pm

Susan Bellomy, RT
